

SouthFresh Builder Preconditioner Feed is used by many Cattlemen in the southeast with great success.

PRECONDITIONER

SouthFresh Builder (with Jumpstart®) Preconditioner

is a blended feed that is formulated for calves as well as developing heifers and bulls. Innovator can be hand fed or offered free choice. Innovator is a combination of high quality ingredients and fiber sources that aids in the digestion and utilization of needed nutrients for optimum growth and production. Innovator also contains Jumpstart and Rumension. Jumpstart is a mineral/vitamin premix specifically formulated for stressed calves at weaning. Jumpstart contains chealted minerals, elevated levels of vitamins along with pre and probiotics to assure your calves get off to the right start. The combination of Jumpstart along with the blended feed ingredients stimulate calves to eat quickly. Innovator also contains Rumension. Rumension is a coccidiostat that also improves feed efficiency and growth. With SouthFresh Innovator, you can expect your calves to grow and to perform at a level to meet most cattle producers demand and expectations, making it an essential part of your livestock nutritional and management strategy.

Primary benefits to SouthFresh Innovator:

- **A perfectly balanced grain and forage combination feed that delivers optimum nutrition in every bite**
- **A unique combination of highly palatable fiber sources, grain products and plant protein sources to stimulate rumen microbes and transition cattle onto a high grain diet**
- **Contains Jumpstart®, a proprietary blend of prebiotics, probiotics to support digestive health and immune function**
